Our purpose is to contribute to the wellbeing and happiness of people through design and the relationship we establish with the objects that surround us in our daily lives. We believe in honest and accessible design.
Nuestra razón de ser es contribuir al bienestar y la felicidad de las personas a través del diseño y la relación que establecemos con los objetos que nos acompañan en nuestro día a día. Creemos en un diseño honesto, accesible y cercano.

DESIGN FOR EVERYONE

BRAND WITH SOUL

Our sustainability journey focuses on minimizing our environmental footprint and maximizing our positive impact on society.
Nuestro camino hacia la sostenibilidad se centra en reducir nuestro impacto negativo en el planeta y maximizar nuestro impacto social positivo.

Clear Code Architecture® Groups
The Clear Code Architecture® method takes into account all diseases recognized by the WHO and complements them with others not recognized.
In this way, 13 groups have been created that encompass all people with similar difficulties when using the physical environment, whether or not they have a disability.

Grupos del Clear Code Architecture®
El método Clear Code Architecture® tiene en cuenta todas las enfermedades reconocidas por la OMS y las complementa con otras no reconocidas. De esta manera, se han generado 13 grupos que engloban a todas las personas con dificultades similares en el uso del entorno físico, tengan o no una discapacidad.

	Group Grupo
1	Cannot see No puede ver
2	Poor vision Ve poco
3	Color blindness Confunde los colores
4	Poor hearing Oye poco
5	Use sign language Utiliza el lenguaje de signos
6	Do not understand language No comprende el idioma

Tider Cable Management Accessory		
20546	Textured Black	**13,60€**
Material	**Structure** TPU	

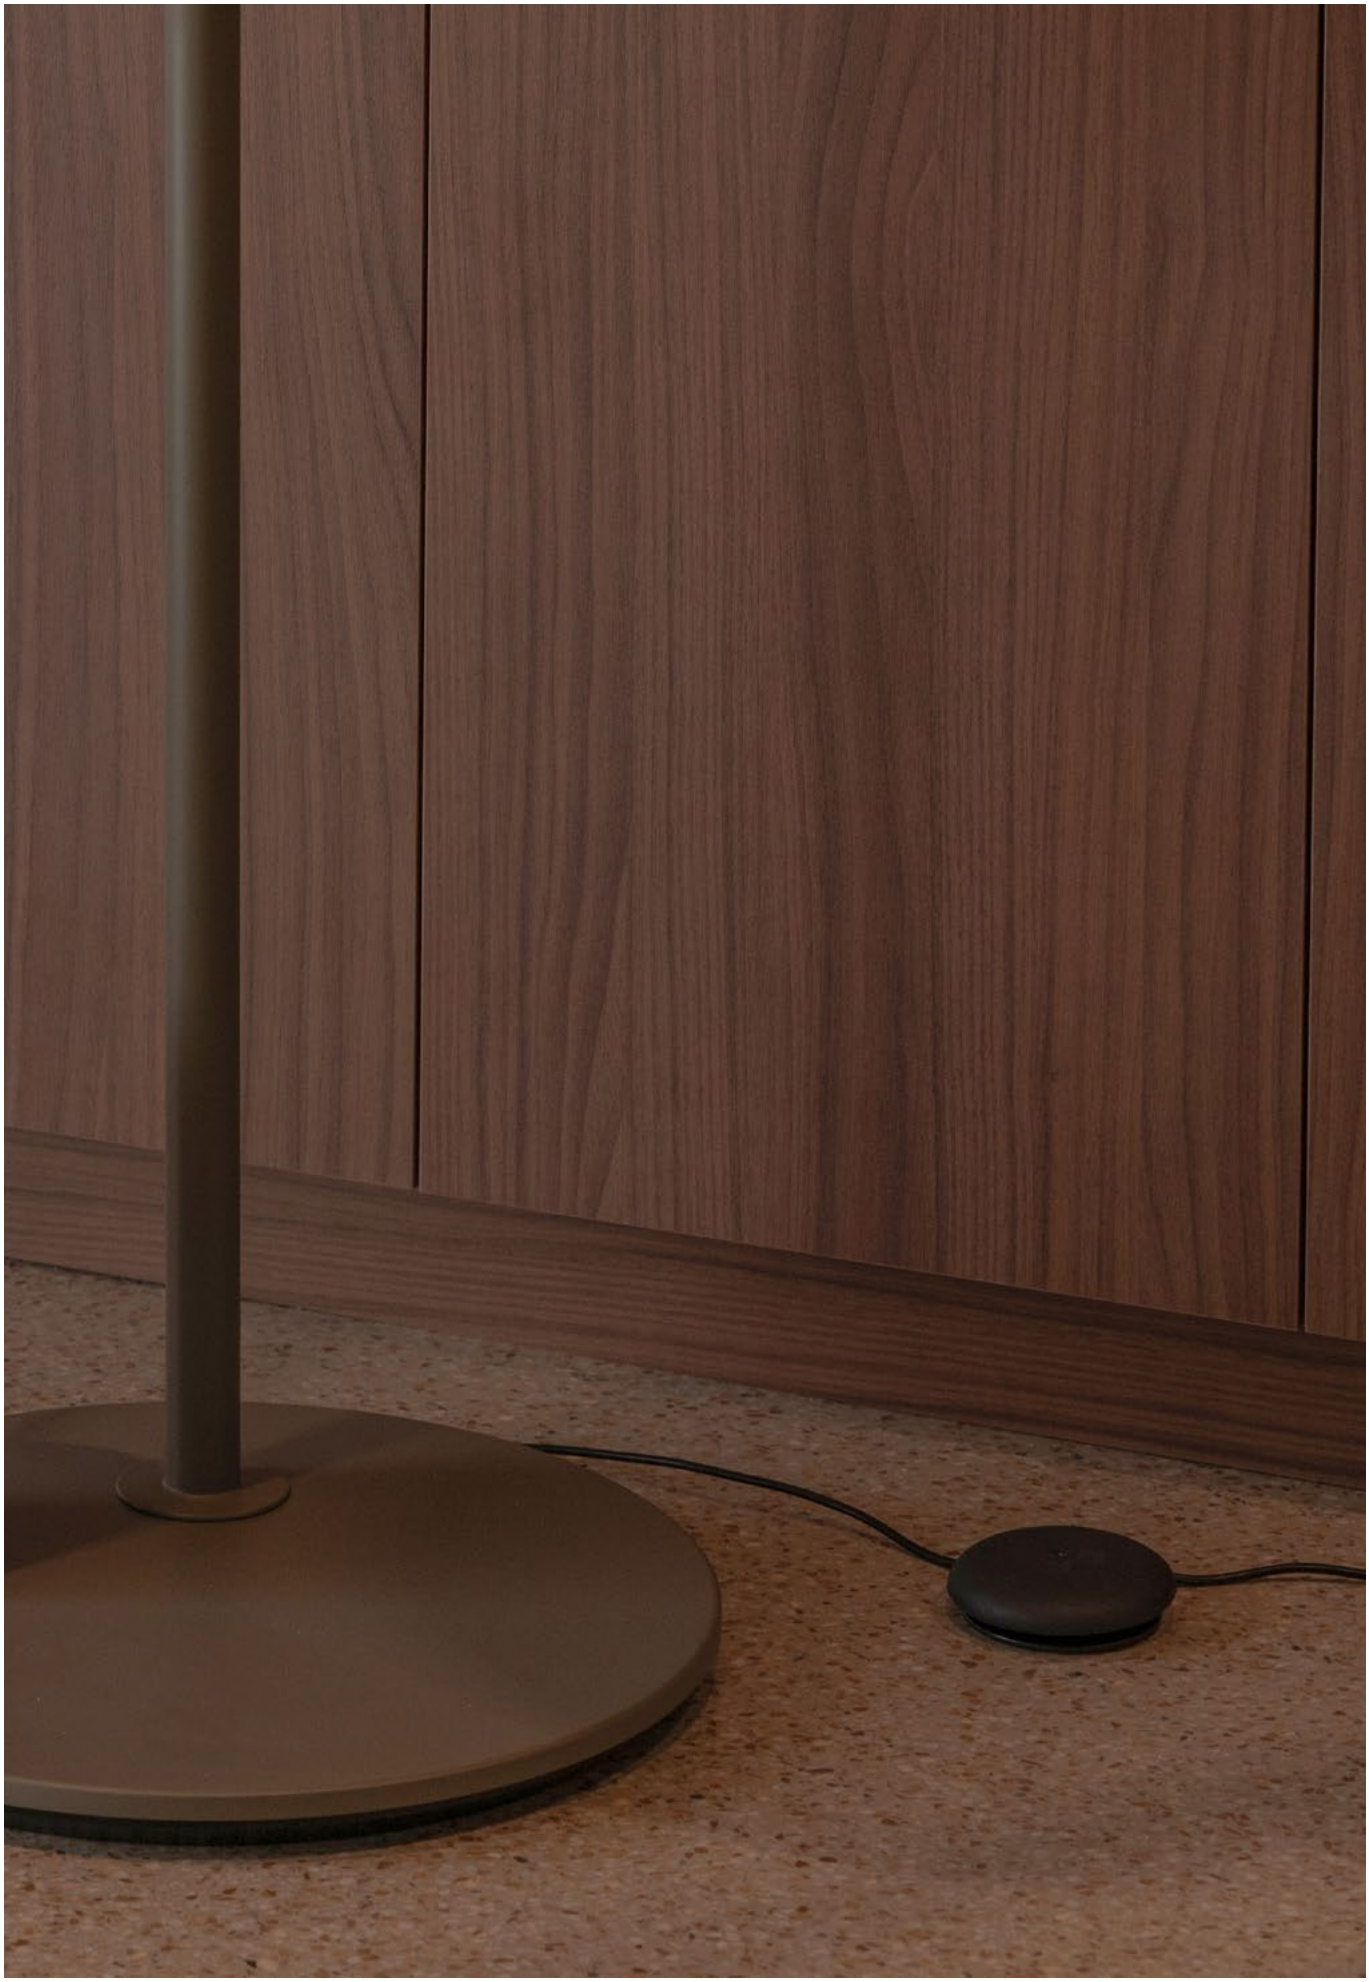

Cable management accessory designed to keep your environment cleaner, more organized, and safer.
It features an adhesive backing that allows it to be firmly fixed to vertical or horizontal surfaces, preventing tripping and slipping hazards.

Made of high-strength PP, it withstands impacts and foot traffic without deforming. The soft section, made of TPE, provides a pleasant touch and a more secure grip.

LUMINA

Carrasquet

Lumina transforms light into visible matter, creating atmospheres rich in warmth and character. A piece defined by both technical precision and emotional depth, with a pure form and a discreet yet unmistakable presence.

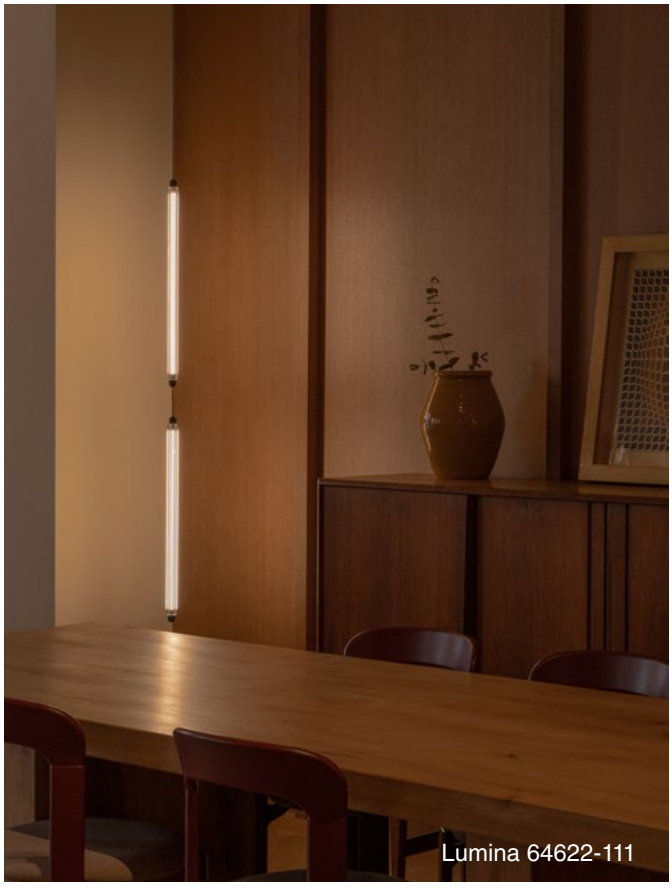

The elements can be linked, clustered or suspended, allowing for linear, angular or free-hanging configurations that flexibly adapt to each project. The result is a piece of both technical and emotional character, with a formal purity and a discreet yet unmistakable presence.

Each module can be installed independently or combined into more complex structures—up to three per driver. The elements can be linked, clustered or suspended, enabling linear, angular or free-hanging configurations that adapt flexibly to each project. Every composition blends naturally into the architecture, casting a balanced light that enhances usability and deepens the spatial experience.

The system is built around a striated glass module with a star-shaped profile—an intricate geometry that amplifies reflections and softens light diffusion, unveiling a warm texture that fosters a sense of wellbeing.

Lumina 64622-111

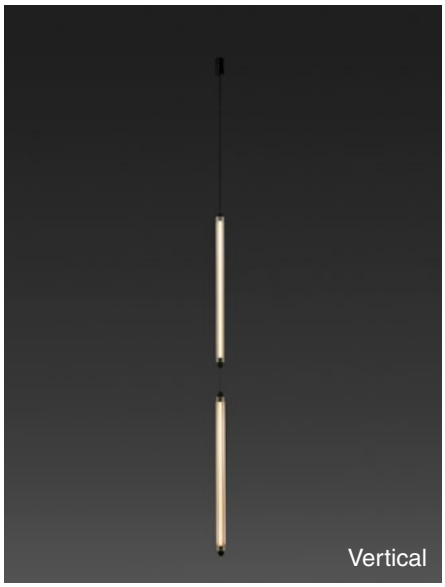

Lumina 64662-111

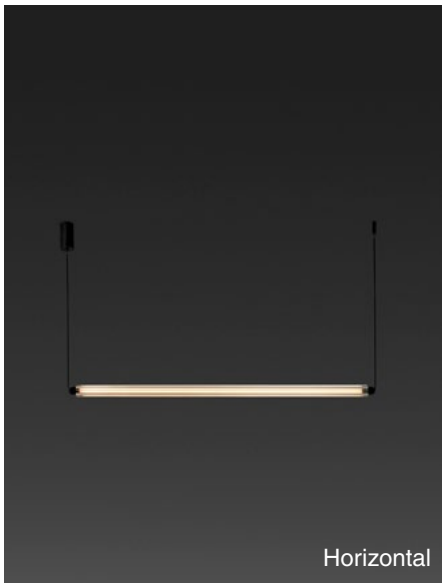

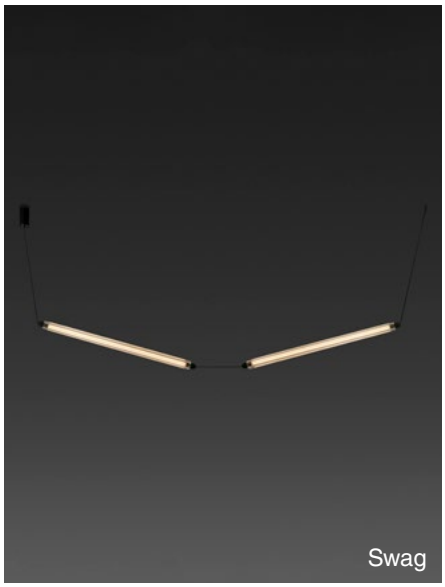

A collection of pendant luminaires that goes beyond function to become a tool for lighting architecture. Its language is understated and precise; its presence, calm and essential.

SWAG

Tierra and Aire arose from a concern about or interest in two concepts. First, an intention to democratise 3D printing on a large scale by integrating it as another industrial process in light manufacturing. Second, and most importantly, an interest in producing increasingly sustainable products and contributing to circularity. The project is something of a rallying cry encouraging us to consider our relationship with the planet in response to the current climate crisis. Nature does not generate waste: we must learn from it and move towards a more circular and sustainable product.

Kappu

Designed by Faro Lab

Kappu (‘cup’ in Japanese) is an allegory to the object that contains light. Its simple, minimalist geometry also allows it to be easily painted to adapt to the needs of any space.
