

FOCUS ON

Cata by Marina Milá

“The warmth and harmony are provided by wood and papyrus, noble materials that help transform spaces into havens of calm and well-being.”

designed by Marina Milá

Cata is an upside-down lamp. Normally, you sketch some lines on paper, outlining what the object will become. But what happens if you put the pencil down again to reduce the idea to its most essential form? What happens if, instead of drawing on the paper, you take it, twist it, and turn it into a lamp? What happens is Cata. It refers to the most essential and pure essence of design, without forgetting the warmth and intimacy provided by the materials it is made of.

Cata es una lámpara al revés. Normalmente dibujas sobre un papel unas líneas, un esbozo de lo que será el objeto. Pero qué pasa si vuelves a dejar el lápiz encima de la mesa para reducir la idea a lo más esencial posible. Qué pasa si en lugar de dibujar sobre el papel lo coges, lo retuerces y lo conviertes en una lámpara. Lo que pasa es Cata. Remite a lo más esencial y puro del diseño, pero sin olvidar la calidez e intimidad que le otorgan los materiales que la componen.

Sustainable packaging

Our packaging is made of recycled cardboard boxes printed in one ink and without staples to facilitate disassembly and proper recycling. We have eliminated single-use plastics and replaced them with recyclable paper bags, and we use recycled cardboard chips to protect the product during transport in 60% of our shipments.

More sustainable logistics and transportation

Flat Pack packaging optimizes volume in storage and shipping, thus reducing the environmental impact and carbon footprint of transportation.

Embalaje sostenible

Nuestros embalajes son cajas de cartón reciclado impresas a una sola tinta y sin grapas para facilitar así el desmontaje y su correcto reciclaje. Hemos eliminado los plásticos de un solo uso y sustituido por bolsas de papel reciclable y utilizamos virutas de cartón reciclado para la protección del producto durante el transporte en el 60% de nuestros envíos.

Logística y transporte más sostenible

Su embalaje en Flat Pack optimiza el volumen en almacenaje y envío, reduciendo así el impacto ambiental y la emisión de carbono derivado del transporte.
