FOCUSON

designed by Carrasquet

A collection of pendant luminaires that goes beyond function to become a tool for lighting architecture. Its language is understated and precise; its presence, calm and essential. The system is built around a striated glass module with a star-shaped profile—an intricate geometry that amplifies reflections and softens light diffusion, unveiling a warm texture that fosters a sense of wellbeing.

The elements can be linked, clustered or suspended, allowing for linear, angular or free-hanging configurations that flexibly adapt to each project. The result is a piece of both technical and emotional character, with a formal purity and a discreet yet unmistakable presence.

Una colección de luminarias suspendidas que va más allá de la función para convertirse en una herramienta para la iluminación arquitectónica. Su lenguaje es contenido y preciso; su presencia, serena y esencial. El sistema se articula en torno a un módulo de vidrio estriado con perfil en forma de estrella, una geometría compleja que amplifica los reflejos y suaviza la difusión de la luz, revelando una textura cálida que favorece una sensación de bienestar.

Los elementos pueden enlazarse, agruparse o suspenderse, permitiendo configuraciones lineales, angulares o de suspensión libre que se adaptan con flexibilidad a cada proyecto. El resultado es una pieza de carácter técnico y emocional, con una pureza formal y una presencia discreta pero inconfundible.
