

# FOCUS ON

Toba by Carrasquet

## Built to endure, made to charm *Diseñada para resistir y cautivar*

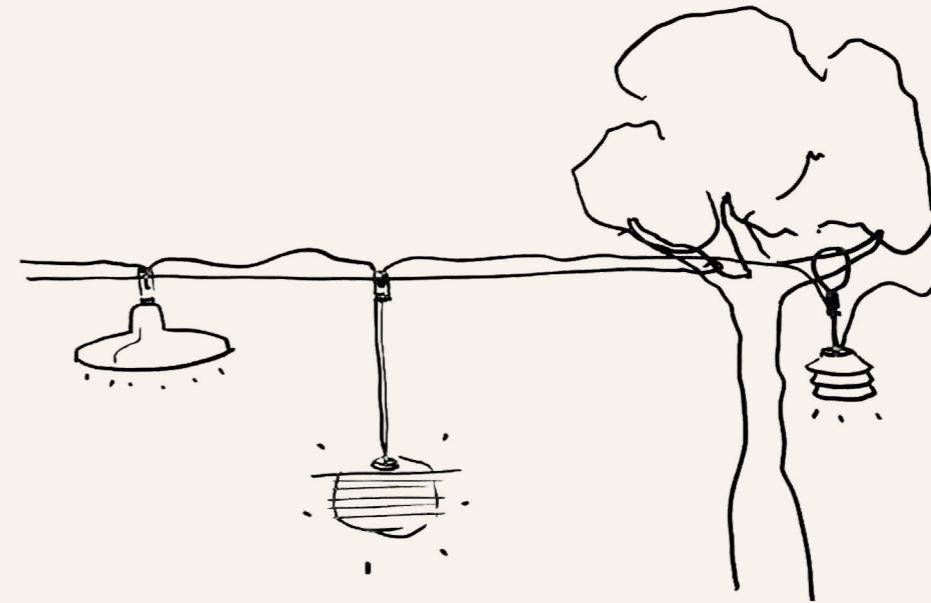

A collection of suspended outdoor luminaires that transcends its utilitarian function to become an element of landscape identity. Its language is organic and adaptable; its presence, warm and enveloping. The system is articulated around a shade of individual silicone discs, a structure that filters and softens the light to create a serene and welcoming atmosphere. Available in beige, terracotta, dark brown, and a harmonious combination of the three, its finishes add character and weather resistance. The modules can be grouped using a garland system that enables configurations at varying heights, adapting freely to any environment. The result is a functional and emotional piece, whose natural and discreet integration transforms any outdoor space into a place with personality, color, and its own light.

Una colección de luminarias suspendidas para exterior que trasciende su función utilitaria para convertirse en un elemento de identidad paisajística. Su lenguaje es orgánico y adaptable; su presencia, cálida y envolvente. El sistema se articula en torno a una pantalla de discos individuales de silicona, una estructura que filtra y suaviza la luz para generar una atmósfera serena y acogedora. Disponible en beige, terracota, marrón oscuro y una combinación armoniosa de los tres. Los módulos pueden agruparse mediante un sistema de guirnalda que permite configuraciones a distintas alturas. El resultado es una pieza decorativa y emocional, cuya integración natural y discreta transforma cualquier espacio exterior en un lugar con personalidad, color y luz propia.

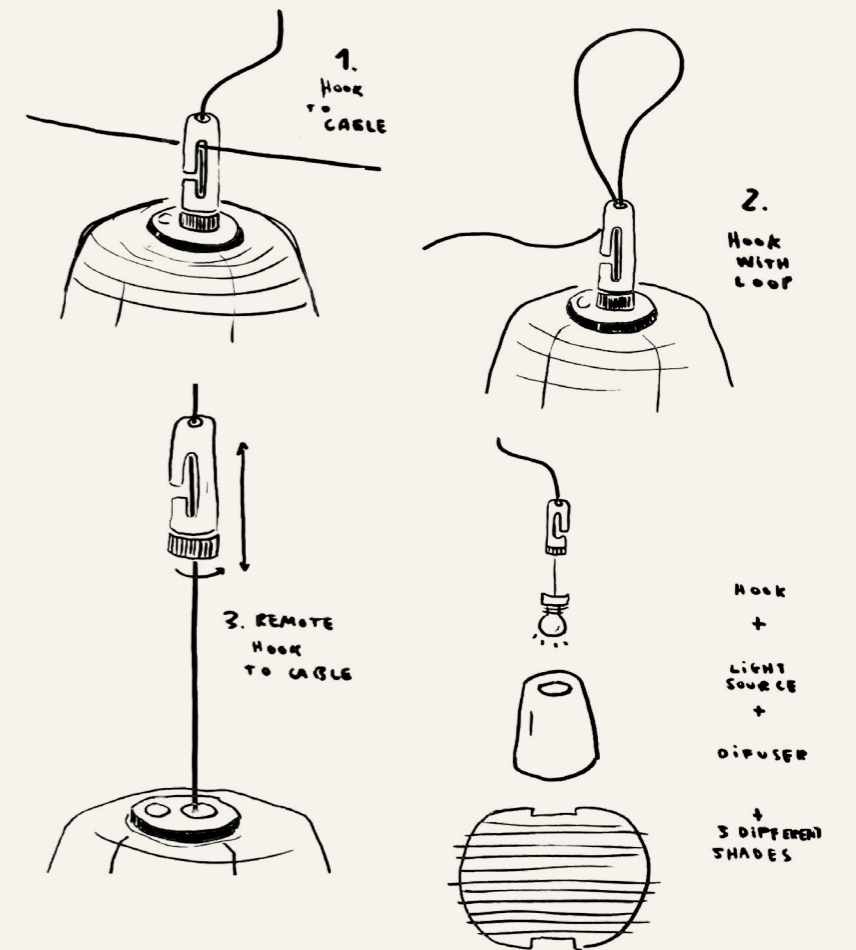

“Flexible, warm and resilient, Toba blends naturally into its surroundings. Its gentle glow enhances outdoor living, bringing colour and character to the space.”

“It can be installed with a canopy or hook, offering creative freedom and a sense of movement across any outdoor setting.”
