

# FOCUS ON

Clap by Faro Lab

## *designed by Faro Lab*

The Clap lighting collection has been conceived to take aesthetic minimalism to new horizons in the illumination of outdoor spaces and gardens. With pure design and minimal structures, this family offers both direct and indirect lighting in its various versions, transforming every corner of the outdoor spaces. Clap responds to the trend of product category hybridization, thus blurring the boundaries between indoor and outdoor luminaires. This lighting system offers great flexibility for project design thanks to its diverse categories: from stakes to beacons, pendant lights, or wall sconces, all with a distinctive and refined aesthetic. The indirect lighting of some versions provides high visual comfort and prevents glare, while eliminating light pollution and highlighting the surrounding vegetation. This collection harmoniously integrates with the environment thanks to its elegant structures, blending seamlessly with the natural landscape.

La colección de luminarias Clap ha sido concebida para llevar el minimalismo estético a nuevos horizontes en el ámbito de la iluminación de espacios al aire libre y jardines. Con un diseño puro y estructuras mínimas, esta familia ofrece una iluminación directa e indirecta en sus diferentes versiones, transformando cada rincón del entorno exterior. Clap responde a la tendencia de hibridación de categorías de productos, desdibujando así las fronteras entre luminarias de interior y de exterior. Este sistema lumínico ofrece una gran flexibilidad para el diseño de proyectos gracias a sus diversas categorías: desde estacas hasta balizas, colgantes o apliques de pared, con una estética cuidada y distintiva. La iluminación indirecta de alguna de sus versiones proporciona un alto confort visual y evita los deslumbramientos, a la vez que elimina la contaminación lumínica y resalta la vegetación circundante. Esta colección se integra armoniosamente con el entorno gracias a sus elegantes estructuras, mimetizándose con el paisaje natural.

“Its minimalist structures and pure design create elegant and serene outdoor atmospheres.”
