Dominica

designed by Farolab

The Dominica collection features floor lamps, table lamps, and long-arm wall lamps, inspired by simple geometric designs and early industrial revolution aesthetics. Its simplicity, paired with a distinct character, elevates any space, whether it's a workspace or a warm, inviting home environment.

La serie Dominica ofrece una colección que incluye lámparas de pie, de sobremesa, y apliques con brazo largo. Inspirada en el diseño de formas geométricas simples, esta familia rinde homenaje al estilo industrial de los albores de la revolución industrial. Simplicidad con carácter marcado, capaz de realzar y ser protagonista en cualquier ambiente, ya sea en un espacio de trabajo o en un entorno doméstico acogedor.
